Support and Solidarity

The Danish Teachers Union – the DLF – stands by you in your struggle for proper conditions for teachers in Poland. Your will of negotiation has not been taken up by the authorities – and you see no other way forward but to strike for your rights. The enormous support your members show for this struggle by voting for the strike tells us all that teachers in Poland stand together in a strong unified action.

The fight for proper working conditions and for the attractiveness of the teaching profession is a fight that teachers unions join in all across Europe – and in the rest of the world as well. Our cause is even bigger than to ensure the rights of our members to have good conditions. Good conditions and the attractiveness of the teaching profession is absolutely necessary to maintain quality in education and thereby ensure that future generations will be able to take good care of the earth and build democracies for the future.

Your fight is our fight. We stand behind you.

On behalf of the DLF

Yours sincerely,

Anders Bondo Christensen
