To: ZNP

Athens, 17 April 2019

Dear Colleagues,

On behalf of all members of the Greek Primary Teachers' Federation, DOE, we would like to express our wholehearted support to your entirely just cause. Our solidarity with our colleagues in Poland is the strongest possible. Your ongoing strike is hundred percent justified.

The working conditions of the teachers all over the world are far from being acceptable. We know that in Poland the salaries are very low. Poor financial status of the educators effects in a multifaceted way the whole education system of a country. Teachers in Greece are also low paid colleagues and our Federation is in a continuous struggle for the amelioration of working conditions and the just rights of teachers and as well as of the students. Strike is the only strong and effective weapon when all other means of reaction like rallies or demonstrations fail.

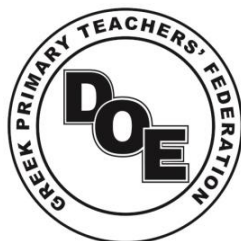

We are in full solidarity with you and we will do our best to widespread your fight for the better.

And dear colleagues, as it is said "The only fight that is lost is the one never fought".

All the best

The President

Kikinis Thanasis

The General Secretary

Troulis Giorgos
